

## SCHOOL TRANSPORT SCHEDULING COMPLETE MANAGED SERVICE

As a technology supplier to local and combined authorities, we know that many organisations struggle to manage scheduling of school transport. This is not surprising: it's a huge, all-encompassing task that occurs just once a year.

Any issues in this area can have a huge impact on your organisation in terms of additional cost (contractors), poorly optimised schedules, poor service to parents and guardians – not to mention the impact on poor local authority staff.

What if there was a better way?

As a provider of technology that streamlines this process; Trapeze has both the tools and internal expertise to support organisations with their school scheduling requirements. We can take away the bulk of your scheduling tasks and return with clearly optimised schedules, leaving your internal experts to focus their time on the complex routes that really demand their attention.

The process is quick, simple and entirely painless.

### Benefits

- Expertly optimised schedules reduce the cost of school transport provision
- Minimise taxi costs
- Reduce reliance on temporary staff for data processing and admin
- Improve level of service to parents and guardians
- Retain control over school scheduling while outsourcing bulk of legwork
- Enable your internal scheduling experts to prioritise time for complex scheduling tasks

*“Take control of school transport scheduling - and take away the pain. A managed service through Trapeze enables you to embrace the benefits of the most advanced technology on the market - without the risk or staffing cost.”*

## SCHOOL TRANSPORT SCHEDULING: WITHOUT THE PAIN

### Why a Managed Solution?

- Trapeze has the tools and experience to carry out the bulk of this work for you
- Automated tools run complex experimentation with different parameters to identify the most optimal schedule. This work would never be possible manually, or with less advanced technology
- The bulk of work (most mainstream pupils and around 80% of SEN pupils) can be automatically scheduled without any local knowledge
- You focus available scheduling expertise on those pupils that really require manual scheduling

### The Pain-Free Managed Timeline

**1st March: Service Start**

**6-16 March: Data Preparation**

**14 April-3 May: Data Validation**

**31 May-9 June: Schedule Validation**

**22 June: Schedules Complete**

### TRAPEZE GROUP: Here for the journey

Trapeze Group supplies reliable, scalable and innovative solutions for the rail and road transport sector. Hundreds of private and public organisations in Europe, North America and Asia-Pacific have selected software solutions from the Trapeze Group in order to improve and broaden the efficiency, quality and scope of their transport solutions, thus enabling them to provide their customers with even more services in a more reliable and cost-effective manner.
